

The Synthetic Array Technologies group (Department of Biomolecular Systems) at the Max Planck Institute of Colloids and Interfaces in Potsdam, Germany invites applications from outstanding young students for

Master Thesis / Internship

We are looking for a highly motivated master student in the field of organic chemistry. The candidate should have a B.Sc. degree in chemistry or closely related fields, with an outstanding profile, a strong background, and interests in

- Organic chemistry
- Solid-phase synthesis
- High-throughput synthesis

To submit your candidature please send an email to:

alexandra.tsouka@mpikg.mpg.de,

with attached PDF version of your CV, an updated transcript of record and your bachelor certificate.

Please send us your application in English.

The accepted candidate will join the Max Planck Institute of Colloids and Interfaces, Biomolecular Systems Department, in the group led by Dr. Felix Loeffler.

The Max-Planck Society is committed to increasing the number of individuals with disabilities in its workforce and therefore encourages applications from such qualified individuals. Furthermore, the Max Planck Society seeks to increase the number of women in those areas where they are underrepresented and therefore explicitly encourages women to apply.

For further information about the Institute, see <https://www.mpikg.mpg.de/>.
