

Biotech startup looking for **microbiology BTA!**

As a Biological Technical Assistant (BTA) at kezbio, you'll play a pivotal role in our mission to develop new drug candidates from the bioreactor – working in a state-of-the-art lab!

We – kez.biosolutions GmbH – are seeking a highly motivated BTA (or equivalent: BioTA, CTA, BCTA, MTA, MTLA) fulltime with a focus on microbiology to join our innovative team in Potsdam-Golm, Germany.

Main responsibilities

- Performing microbial cultivation in bioreactors and shakers
- Preparing media and competent cells as well as conducting product extraction
- Genomic manipulation and strain establishment, management and quality control
- Preparation of laboratory equipment and precise documentation of workflows
- Collaborating with scientists on research projects and the optimization of our fermentation processes

Qualifications

- Completed training as a Biological Technical Assistant or equivalent
- Experience in microbial cultivation and fermentation (desirable but not mandatory)
- Proficiency in aseptic techniques and working with modified organisms (S1)
- Detail-oriented approach and passion for delivering optimal solutions
- Ability to work independently and collaboratively
- Good command of either English or German

What We Offer

- Opportunity to work on cutting-edge biotech research
- Collaborative and innovative work environment
- Chance to shape your role and contribute to company culture
- Competitive salary and 30 vacation days
- Professional development opportunities (e.g. workshops, conferences, training)

Join our small, dynamic team and be part of a young company developing groundbreaking technology. Whether you're a **recent graduate** or an **experienced professional**, we welcome applicants from all levels and are committed to a diverse and inclusive workplace. If you're eager to innovate and contribute to pioneering discoveries, we invite you to apply to [jobs@kez.bio!](mailto:jobs@kez.bio)
