

GlycoUniverse GmbH & Co KGaA was founded as a Max-Planck-Society spin-off in 2013 in Berlin. We are now located at the Potsdam Science Park in the greater Berlin area. Our business is built around the topic of carbohydrate chemistry where we serve our clients globally in three different ways: 1) Technology: we develop and sell the world's first automated platform for oligosaccharide synthesis – The Glyconeer®; 2) Building Blocks: we develop and provide our customers with the necessary monosaccharide building blocks required to synthesize complex glycans with the Glyconeer® and 3) Chemistry services: we offer our clients custom synthesis for building blocks and complex glycans.

Experienced Synthetic Chemist (f/n/m)

Job description:

We are currently seeking a **full-time** Organic Chemist with PhD as **Experienced Synthetic Chemist (f/n/m)** in Potsdam (Brandenburg), Germany.

You will:

- join the custom synthesis team.
- execute custom synthesis projects based on established/optimized or newly developed synthetic procedures.
- analyze the molecules (NMR, MS, HPLC) and prepare analysis certificates.
- join project meetings and present your results to the team and our clients.
- support and supervise junior staff in the execution of the projects.
- additionally, support the building block sales team.

Your profile:

- you have a PhD in organic chemistry.
- you have experience in multiple step organic syntheses, extensive experience in synthetic carbohydrate is strongly preferred.
- you have the ability to work independently and structure your work-time to meet strict deadlines.
- you keep a tidy work place with a focus on safety and you are able to neatly document your protocols and results.
- you are committed, proactive, reliable and you are not afraid to step outside your comfort zone.
- your communication skills allow you to seamlessly integrate into an international team and communicate with our global clients.
- Ideally, you are fluent in written and spoken English and German.
-

Start date:

- from 01.10.2021

Are you interested in immersing yourself to the field of synthetic carbohydrate chemistry and help to make GlycoUniverse a global leader in the field?

Send your application in German or English (CV, motivation letter, educational transcripts and a recommendation letter) to Dr. Mario Salwiczek (m.salwiczek@glycouniverse.de).
